Helping disaster victims without resources

Donation form

La Fondation GUS was created in 2001 by Groupe Urgence Sinistre, the largest network of damage restoration professionals. Being on the front line of emergency situations, GUS is too often witness to families without resources within the tens of thousands of cases dealt with each year. Its within this context that the company launched its foundation. Its mission is help disaster victims by buying essential household items and professional post-disaster services.

We can offer this help thanks to your donations and from money collected at fund raising activities. We therefore call upon your generosity which will allow us to help more and more disaster victims and families in dire need.
